Add your own dedication into PlantUML

For just \$5 per month!  
Details on <https://plantuml.com/dedication>

Welcome to PlantUML!

You can start with a simple UML Diagram like:

Bob->Alice: Hello

Or

```
class Example
```

You will find more information about PlantUML syntax on <https://plantuml.com>

(Details by typing license keyword)

PlantUML 1.2024.1beta1

## Level 3: Component diagram

Next you can zoom in and decompose each container further to identify the major structural building blocks and their interactions.

The Component diagram shows how a container is made up of a number of "components", what each of those components are, their responsibilities and the technology/implementation details.

**Scope:** A single container.

**Primary elements:** Components within the container in scope. Supporting elements: Containers (within the software system in scope) plus people and software systems directly connected to the components.

**Intended audience:** Software architects and developers.
